SUBJECT: U. S. Position Paper on Observation Posts

1. Attached is a copy of subject position paper, which has been submitted by ACDA to the Committee of Principals for approval.

2. The paper does not set a deadline for consideration, but the paper is obviously one for the forthcoming resumption of negotiations at Geneva. I would therefore appreciate having your comments as soon as practicable.

3. You are invited to comment on any area where you feel moved to do so, but with special emphasis on whether the system of posts proposed is adequate to achieve the objectives for such a system as laid down in the paper.
